EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Norman Sims on 3/8/2005.

IN THE SPECIFICATION

At page 3, line 15, change "Figure A" to --Figure 1--.

IN THE CLAIMS

Method claims 7-10 are cancelled. A divisional application for method claims will be filed separately.

Drawings

2. A new corrected drawing in compliance with 37 CFR 1.121(d) is required.

Applicant has agreed on 3/8/2005 to submit a replacement for the drawing titled "Figure A" with a newly submitted drawing titled "Figure 1". It should be noted that the faxed copy received 3/8/2005 is non-compliant, because it fails to add "Replacement" on the drawing.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The Examiner notes that while the reference by Davis (US 5806919) also teaches a composite foam core and an expandable adhesive for use as a structural reinforcement insert, Davis lacks the teaching of a molded shell for the foam core (Abstract, Fig. 2, and column 2, lines 38-40). On the other hand, while the newly submitted IDS provides a reference by Czaplicki (US 6668457) which teaches a hollow structural member having a heat-activated structural foam for reinforcing a hydroform member, Czaplicki lacks a teaching of a light weight foam core (Abstract, Fig. 2). In particular, Davis also expressly teaches that the low density foam core supports the expandable adhesive during the curing process. As such there is no motivation to modify Davis to include an additional shell-like structural member of Czaplicki, and the instant invention is neither obvious, nor taught, by Davis or Czaplicki.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
